Action • Role-Playing • Quest • Cut-Scene • Easy-to-Play SYSTEM High quality graphics and smooth performance for higher frame rates High quality character models, textured background, and environments A vast world where open fields with a variety of situations and huge dungeons with complex and three-dimensional designs are seamlessly connected. As you explore, the joy of discovering unknown and overwhelming threats await you, leading to a high sense of accomplishment. Unlike other games, this game is played as RPG, in which the player selects the desired class and has some basic skills through the training and leveling up. After leveling up, the player can freely customize the appearance and skills using the NPC Merchant. Skills and equipment are acquired through experience points gained from activities such as killing monsters or completing quests. Moreover, fighting against a boss at the final stage is only available for those who have acquired a certain level. Play Style There is no one-size-fits-all play style in this game. You can freely combine the skills and equipment that you have, and freely customize the appearance of your character. Furthermore, the game can be played with the combination of two individuals; the two characters can switch between the active party and the standby party. With different combinations of skills and equipment, it is possible to tackle various scenarios. The Summoning and Consumables include a variety of monsters and weapons, along with the equipment of the heroes, to be used and sold in the game. In this game, the player has a chance to acquire skills depending on the monster level; the higher the level, the higher the skill level. Please note that you can change the skills and equipment if you are willing to pay the costs of the skills and equipment. Character Customization About the Character In the game, you can freely change the costume to your liking. The bigger the difference from others, the more victory points are gained. Depending on the class of the main character, the skills of the character can be tailored. For example, the magic skill can be decreased for the warrior class, and the constitution skill can be increased for the magic class. In the customization menu, it is possible to add your own accessories and items to your character. The more unique your accessories and items are, the more victory points are acquired. The Accessories and Items can be acquired during the game by using points gained from monster kills or from the consumables. The point exchange amount for items are different
